Summary

Tech Lead focused on mobile products: Flutter, backend, and delivery. I ship apps to the App Store and Google Play and, when needed, own the API, infrastructure, and the team. Currently Tech Lead at RentOut (~8 people, greenfield to store release). Previously Flutter at ProDoctorov (MedTochka) and Tech Lead / full-stack on TaxyMatch (France).

Skills

Mobile: Flutter, Dart, BLoC, go_router, Hive, SQLite, Firebase, App Store / Google Play release

Backend: Laravel, NestJS, Node.js, PostgreSQL, REST, WebSocket

Infra: Docker, CI/CD (GitLab / GitHub), Linux, nginx, systemd

Lead: team lead (up to 8), architecture, code review, hiring / quality oversight, roadmap

Experience

Tech Lead — RentOut Technologies (Yakutsk / rentout.one)

December 2023 – Present

- Led a team of ~8; shipped a housing-rental product from greenfield to App Store and Google Play.
- Designed and built the full stack: Flutter client, Laravel API, PostgreSQL; contributed Node.js pieces as needed.
- Established an extensible architecture and delivery workflow (development, review, store readiness) for continued product growth.

Flutter Developer — ProDoctorov / MedTochka (Krasnodar / prodoctorov.ru)

November 2022 – October 2023

- Built the telemedicine module in the patient mobile app (Flutter).
- Introduced automated integration tests and CI/CD practices, reducing reliance on manual regression QA.
- Refactored critical paths to improve app responsiveness.
- App available on the App Store and Google Play.

Tech Lead / Full-stack — M101 / TaxyMatch (France / m101.fr)

July 2020 – October 2021

- Led development of a ride-sharing product for transfers; stack: Flutter, Laravel, PostgreSQL (Vue on earlier web parts).

- Migrated the mobile client from React Native to Flutter.
- Expanded the product from airport-only transfers to railway stations.
- App available on the App Store and Google Play.

Full-stack Developer — Anthill (Sochi)

October 2019 – June 2020

- Built and maintained client projects (React, .NET Core, MongoDB and related stack).
- Contributed to the server side of the WATI messaging automation platform (Node.js / Azure).

Freelance / contract development

June 2016 – September 2019

Contract web projects and medical information systems (PHP, .NET, SQL).

Programmer — JSC SMC Sahamedstrakh (Yakutsk)

October 2011 – May 2016

MIS, 1C configurations, MSSQL / Windows Server administration; internal process automation for an insurance company.

Technician-Programmer — Meduza Casino (Yakutsk)

January 2010 – September 2011

Gaming hardware service and repair; early hands-on hardware experience.

Selected projects

- **RentOut** — Tech Lead; Flutter + Laravel — App Store / Google Play (see goodwin.website/work/rentout)
- **MedTochka** — Flutter — App Store / Google Play
- **TaxyMatch** — Tech Lead / full-stack — App Store / Google Play
- **VirtueForge** — owner (Flutter + NestJS) — <https://virtueforge.goodwin.website>
- **GoodWin VPN** — owner (Flutter VPN client) — <https://vpnclient.goodwin.website>
